One tap · no sign-up · play as a guest

Drawize is a free, sleek online drawing game like Pictionary — draw and guess with friends or players around the world, no download needed. Play live multiplayer rounds, or try Quick Draw and Quick Guess practice modes in private rooms. Drawize also works great as an office game or an interactive classroom activity!

Try CopyCatAI, our fun AI drawing game, where you can replicate images and get feedback from AI critics to enhance your drawing skills with each challenge.

To start one of our online drawing games, select the mode you want to play and start having fun! When you are the artist, choose the word and draw it as best you can!
