Reviews

"Exacting, agonising, challenging, and intensely rewarding, Into the Breach delivers in the tiniest package the most perfectly formed tactics around."
93 – PC Gamer

"Into The Breach is a pristine and pragmatic tactical gem with dynamic conflicts that will inspire you to jump back in again, and again, and again."
90 – GameSpot

"It's a small-looking tactics game that's kept me playing more intently than most big ones."
90 – IGN

About This Game

The free major update, **Into the Breach: Advanced Edition** is now available!

Nearly every aspect of the game is expanded with new content, including:

- **New Mechs and Weapons:** Five new mech squads and nearly forty new weapons.
- **New Challenges:** More enemies, more bosses, and more mission objectives.
- **New Pilot Abilities:** Four new pilots and triple the amount of pilot skills.
- **"Unfair" Mode:** A more challenging difficulty to test the most seasoned tacticians.

The remnants of human civilization are threatened by gigantic creatures breeding beneath the earth. You must control powerful mechs from the future to hold off this alien threat. Each attempt to save the world presents a new randomly generated challenge in this turn-based strategy game from the makers of FTL.

Key Features:

- **Defend the Cities:** Civilian buildings power your mechs. Defend them from the Vek and watch your fire!
- **Perfect Your Strategy:** All enemy attacks are telegraphed in minimalistic, turn-based combat. Analyze your

Very good tactics game. Seeing an impossible turn and solving the puzzle of "how do I get out of this?" is super satisfying

This game will make you feel like a genius on one turn, and then like a complete idiot on the very next turn. Gameplay is so compact that its both easy to pick up and put down, and very easy to get sucked into. Please play. Also give my goats the steel judoka a chance, they just need investment.

Good game but can be hard to get into.

If you like grid- and turnbased combat get this.

It's not about killing enemies as fast as possible,
it's more about acing all secondary objectives + keeping the buildings safe.

Huge minus for not being able to play with all squads right away, putting them behind a coin system which takes hours to grind is the thing I dislike most about this game.

Amazing game, perfect for those who like top-down turn-based strategy games and those who like to mix and match their units capabilities. Reminds me somewhat of Mewgenics but more limited in build creativity but alot more objective based combat.

Into the Breach is an incredibly fun, turn-based rogue-light strategy game. It's insanely addictive to play round after round. I love the art style and the concept itself is just so well executed.

I don't think it can be said that if you enjoy tactics games or roguelikes, then you are likely to enjoy Into the Breach. All similarities to those genres are both surface-level and basic. The game entirely revolves around positioning mechanics to move your enemies on the grid, either to prevent attacks or kill them with the environment. You are restricted to a team size of three, with a two-slot customizable loadout per companion. It's very limited, which makes sense because of the aforementioned core gameplay mechanic. I cannot imagine many people would be entertained by the puzzle-like core gameplay of repositioning enemies on the very small maps. It's too bad. FTL is a gem of a game with massive replayability and all kinds of different loadouts with the

It's pretty cerebral, despite its simple rules. I can't play this after a long day's work when I'm tired, I don't think any other game has that effect. But when I have the energy for it, it's super fun and super rewarding.

If you've ever loved a board game called Too Many Bones by Chip Theory Games, you will love this, especially considering Into the Breach is a much more affordable tactical experience.

It's an exceptionally well made video game and I've just barely scratched the surface with one win on normal.

Great game if you want to crunch your brain at times, but the randomness of it all might break your runs on the first turn of the map which doesn't leave you with any options..
