Incredible game, easy 10/10. If a genie offered me 3 wishes, one of them might have to be the ability to wipe this game from my mind at will so I could experience it over and over again.

bought this game blind like everyone said to & i got stuck. i tried for months to get answers on where i needed to go next in order to become unstuck without getting spoiled, but it didn't work. i finally watched someone else play it and realized that i had all the pieces in front of me, i just never connected those dots. i don't think i ever would have figured it out without outside intervention! anyway, everyone who plays this blind seems to have some sort of massive religious experience that you can't ever have again, and i missed out on that. but you know what? the game is still good. so don't even worry about it. your journey will always be your own

How do I feel after playing this ? I am not quite sure. Would I do it again after destroying all of my memory? Absolutely.

I've pirated this game 5 years ago. You can only play it once so I have no insentive to replay it, yet I still bought it now. Sorry its only $10, that's how much I can afford to pay, in better times I'd gladly buy this masterpiece for the full price. Please keep creating.

After this game people will be baiting you with "It's like Outer Wilds" and, of course, you will check it out and, of course, it won't be close at all, but you will keep falling for it, cause you'll be seeking that feeling of "Outer Wilds" again until... the Sun explodes.

Without spoiling anything, this is one of my favorite games and has simple but intriguing mechanics that are worth a blind playthrough.

This is truly one of those games you can only experience once, so I recommend trusting all the people saying to trust them if you love hidden story and exploration games and play it as blind as possible and avoid looking stuff up even if you are stuck.

There is a reason it has so many people speaking highly of it, but Outer Wilds is better experienced in solitude and with humble expectations.

POSTED: OCTOBER 15

I got to play this masterpiece during one of the lowest points of my life, I was depressed. At first, I thought it would just be a game to distract me from everything I was going through: all the changes, the difficult decisions, and the overwhelming uncertainty of it all. I wasn't really in a place where I could consciously learn anything from an experience like this. I just wanted an escape.

But somehow, Outer Wilds became so much more than that. It became my main coping mechanism.

I had intense astrophobia and megalophobia, so exploring this universe wasn't exactly a comfortable experience for me. And yet, I was intrigued. I was curious. I was exhausted, but completely invested in the journey. Captivated by the

Worth every minute. A dear friend of mine recommended this game to me, told me do not look up any guides, enjoy it, make up your own theories and come back. I did exactly that, and I wish I can wash my brain to experience it all over again.

Enjoy the game and do not spoil it for yourself!

Genuinely a life-changing experience.

It's a masterpiece that changes your view on the universe.
Please give it a shot if you haven't already, and enjoy it! Cause you can only experience it once.

One of the Most Life-Changing Games I've Ever Played

No, seriously. This is one of those games that, once you've finished it, leaves you wishing for just one thing: to be able to experience it all for the very first time again.

I first heard about this game on TikTok, where someone said that if you liked Zelda, you'd probably like this too. And damn, were they right!

So if you're thinking about buying this game, DO IT. You won't regret it.

I initially bounced off this game for years, but one day I came home from school and booted it up and for the next week i was putting all my free time into it. I don't know what changed but it was worth it eventually.

It's been a long time since I've played this and I still find myself thinking about it.

I overwhelmingly recommend this game - but specifically spoiler free - it's an experience you can only have once and I'd do anything to get that back.

Enjoy it - enjoy true art <3

This game was an amazing experience. The world is beautiful- and the story as well. I can't imagine how much work went into putting this all together- the puzzles, ideas, everything. Very well constructed and like nothing I've ever played before. The music is also awesome.

Truly a near perfect game and, if you are into anything like this- I highly recommend it.
